

**Stick with
the Groove**

On2 MARKETING INC.

Maple Grooves

The original "Stick with the Groove". Truly distinctive drumsticks in look, feel and sound, featuring world-famous Canadian Hard-Rock Sugar Maple.

Please consult our website or the following order sheet for all available models and codes.

A Series

16 ¼" (425mm) length with a long curved taper from the grooves mid-point to the tip. There is a short curved taper from the groove mid-point to the butt-end, resulting in a slightly larger diameter at the fulcrum. This unique profile provides the A Series with exceptional balance and incredible control.

Models: A, AA, AAA - Suggested Retail Price - \$12.98/pr

B Series

16" (405mm) length with a long straight taper from the tip to the butt. Featuring a precise and easy to control feel, the B Series excels as an excellent all-around drumstick: suitable for all types of players and musical genres.

Models: B, BB, BBB, B-Bop - Suggested Retail Price - \$12.98/pr

C Series

16" (405mm) length drumstick with a short curved taper to the tip. There is a slight taper from the groove mid-point to the butt. The C Series features larger diameters and heavier weights: A solid, and powerful drumstick choice for drummers who won't compromise on quality and feel.

Models: C, CC, CCC - Suggested Retail Price - \$12.98/pr

L Series

16" (405mm) length with a long straight taper from the tip to the butt. Long grooves on the handle enhance control and feel. Drummers who wear gloves when they play will appreciate the extra control the long grooves provide.

Models: L, LL, LLL - Suggested Retail Price - \$13.98/pr

GripControl™

HeadHunters Maple Grooves models are also available with our innovative GripControl™ finish: A unique grip and comfort-enhancing coating of the handle.

Series A, B, C - Suggested Retail Price - \$15.98/pr

Series L - Suggested Retail Price - \$16.98/pr

Maple Classics

Traditional style, feel and sound - World-famous Canadian Hard-Rock Sugar Maple

Classic in name and style: HeadHunter's quality and feel in the world's most popular drumstick sizes.

Models: 5A, 5B, 2B and Rock - Suggested Retail Price - \$12.98/pr

Hickory Grooves

The original and distinctive 'Stick with the Groove' is also offered in American Hickory; famous for it's unparalleled strength, feel and sound.

Hickory Grooves share the same specifications as their Maple Grooves cousins, while featuring the hallmarks of American Hickory: strength, great feel and confident durability.

Models: A, B, C, B-Bop, MiniBop - Suggested Retail Price - \$12.98/pr

The Story of the Groove

Drummers understand groove. A great groove is undeniably inspiring.

Groove comes with practice and dedication to the art of drumming. HeadHunters **Stick with the Groove™** drumsticks inspires drummers to go get that groove.

Why grooves? Feel. Control. Confidence. Drummers and percussionists have some very inventive ways of enhancing the “grip experience” with their drumsticks. HeadHunters **Stick with the Groove™** addresses this by incorporating the ‘grip experience’ into our designs. No more tape, sandpaper, special sprays or other means of ‘roughing up’ the grip area!

Using world renowned Canadian Rock Maple, known for its beauty, strength, and acoustical qualities; HeadHunters has created the essential premium drumstick.

Drummers will immediately notice the distinctive grip areas and unique taper profiles in each of HeadHunters three **Maple Grooves™** series. Taper options include the long curve of the **A Series**, with its short reverse taper to the butt. The **B Series** features a long, butt to tip straight taper – reminiscent of the traditional pipe band drumstick. Our **C Series** family has a short curved ‘cambered’ taper, along with a very short reverse taper to the butt end. The **L** or “**Long Groove™**” **Series** will appeal to drummers who prefer to wear gloves when they play. With a taper profile similar to our B Series, the long grooves provide precise means for better finger placement and stick control. All HeadHunters drumsticks tips are rounded, producing a warm yet articulate cymbal tone. The grip area is thicker than normal which reduces undesirable shock and vibration transfer to drummer’s wrists and arms. A range of diameters within each letter series guarantees there will be an drumstick appealing to every drummer.

The result? A world class selection of premium drumsticks drummers will find simply irresistible.

HeadHunters – Stick with the Groove
